High-Throw

COLOR OPTIONS

* Custom colors available. Requires a premium charge and additional lead time.

Note: Colors may vary. No two dye lots are the exact same color.

Sedona-Xm features an active antimicrobial agent which is incorporated into the fabric during the fabric manufacturing process. Independent antimicrobial testing reveals a distinct zone of inhibition around the fabric swatch. Even after being laundered (10x), tested fabric samples continue to yield clear antimicrobial effectiveness.

Sedona-Xm is made with 55% recycled content.

Fabric

Sedona-Xm premium grade fabric features an active antimicrobial agent, a matte fabric finish, and it's GREEN with 55% recycled content. This fabric is available in seven standard colors plus custom color matching. Construction features finished seams, positive inlet anchoring system with cover-up sleeve, zippered endcaps, and a zippered inlet collar for a DuctSox Final Filter or Adjustable Flow Device. Sedona-Xm fabric is air permeable, machine washable, and available with all suspension systems.

Application

Sedona-Xm is a colorful premium fabric that is ideal for any aesthetically attractive environment. Common uses include retail, commercial, education, and community applications. Ideal if condensation is a concern.

Specifications

- Weave: Fire Retardant Polyester Filament/Filament Twill
